

# Have you ever thought to yourself:

**I want a career that allows me to truly make a difference in people's lives.**

You can make a difference. A career in Massage Therapy allows you to positively impact your client's health and well-being while giving you the opportunity to maintain your own optimum mental and physical condition.

**I want a career that offers me flexibility yet financial security.**

According to the American Massage Therapy Association, the average annual income for a massage therapist, in this region, who provides 15 hours of massage per week is \$29,250 (including tips).

**I want a career that offers me several options for employment, allowing me to explore different interests.**

Many students are surprised by the range of modalities to choose from. Interested in sports? How about Sports Massage? Is helping others recover from illness or chronic injuries your passion? Want to work with pregnant woman and infants? Maybe you'd rather give an exceptional relaxation massage. Whatever your interests, the field of massage offers you a wide range of employment opportunities.

**Why wait? Prepare for a life changing, life enriching career at the Port Townsend School of Massage.**
